About Symgard

Creating a More Harmonious Backyard

At Symgard, we believe a backyard is more than an outdoor space. It is a place where people, plants, birds and everyday life can come together.

Inspired by nature and outdoor living, we create products designed to bring warmth, beauty and a closer connection with the natural world into everyday spaces.

From bird feeders and garden&decor to solar-powered outdoor lighting, Symgard focuses on practical products with thoughtful designs for modern outdoor living.

Our Collections

01 Smart Solar Bird Feeders

Smart solutions for backyard bird watching and outdoor living.

02 Solar Bird Feeders

Nature-inspired bird feeding products designed for backyard spaces.

03 Solar Lanterns

Decorative solar lighting designed to add warmth and atmosphere to outdoor spaces.

04 Flower Lamps

Decorative lighting inspired by flowers and natural forms.

Smart Solar Bird Feeder01-(SABF01-JYHDO1)

Product Overview-(SABF01-JYHDO1)

A smart solar bird feeder designed to bring backyard bird watching closer to everyday life. Combining solar-powered outdoor use with smart features, it creates a more engaging experience for bird lovers and families.

Key Features-(SABF01-JYHDO1)

1. **AI Bird Recognition:** Accurately identifies over 10,000 bird species while providing information on bird behavior, meeting birdwatchers' needs for species identification.

- 2. **Industry's First AI-Powered Low-Feed Detection:** The AI system automatically detects when the feeder is running low on food and triggers an alert.
- 3. **2K HD + Full-Color Night Vision:** Equipped with a high-definition lens and night vision lights, it delivers full-color images even in low-light conditions, enabling clear birdwatching around the clock.
- 4. **Remote Viewing and Sharing via App:** Supports real-time birdwatching through a mobile app, allowing you to share your birdwatching experiences with family and friends.
- 5. **Two-Way Audio:** Use the mobile app to remotely play bird calls to attract birds, and engage in two-way voice interaction.
- 6. **Solar-Powered + Battery Backup:** Features a built-in solar panel, eliminating battery life concerns for outdoor birdwatching.
- 7. **AI-Powered Squirrel Deterrence:** When a squirrel enters the monitoring area, the feeder automatically plays an eagle's call to scare it away, effectively protecting the birdseed.
- 8. **Outdoor Rain, Lightning, and Dust Protection:** Features superior outdoor protection against rain, lightning, and dust.

Smart Solar Bird Feeder06-(SABF06-JYHDO6)

Product Overview-(SABF06-JYHDO6)

A smart solar bird feeder designed to bring backyard bird watching closer to everyday life. Combining solar-powered outdoor use with smart features, it creates a more engaging experience for bird lovers and families.

Key Features-(SABF06-JYHDO6)

1. **AI Bird Recognition:** Accurately identifies over 10,000 bird species while sharing knowledge of bird habits, meeting birdwatchers' needs for species identification.
2. **Multi-angle Adjustable Lens:** The lens supports manual left-right rotation from 30° to 230° . No need to move the whole unit; simply adjust the lens to precisely target the feeding port, drinking trough and perching stand for full-scene birdwatching with no blind spots.
3. **Industry's First AI-Powered Low-Feed Detection:** When birdseed runs low, the AI system automatically detects the shortage and pushes low-feed alerts via mobile APP.

4. **Equipped with AI High-Definition Lens:** Captures fine details of birds up close. Supports real-time birdwatching via mobile APP, and you can share bird footage with family and friends to enjoy birdwatching together.
5. **Solar-Powered + Battery Backup:** Powered by solar panels in daytime and battery at night. Achieves non-stop power supply and worry-free outdoor wireless bird watching.
6. **AI-Powered Squirrel Deterrence:** When a squirrel enters the monitoring area, the bird feeder automatically plays eagle calls to scare squirrels away and effectively protect birdseed.
7. **Multi-angle Adjustable Lens | Panoramic Zero-Blind-Spot Observation:** The lens supports manual left-right rotation, freely adjustable between 30° ~230° . No need to move the whole device. Adjust only the lens to precisely aim at the feeding trough, drinking port and perching stand, delivering full-scene birdwatching without visual blind spots.
8. **Feeding & Watering 2-in-1:** Attracts a wider variety of birds. The hummingbird-friendly water feeding kit unlocks dual functions. It can throw food to attract wild birds, and the supplementary water feature draws hummingbirds. One device lets you observe more bird species and expand the joy of bird watching.
9. **Multi-scene Compatibility:** One device for multiple outdoor feeding & cage care scenarios ✓ Outdoor Use: Supports pole mounting, hanging and wall installation to feed wild birds ✓ Cage Use: No-drill installation inside bird cages for remote care of pet birds.
